

Training Management Services

As a leading system supplier, we provide our customers a comprehensive Integrated Logistics Support programme for guaranteed long term support of the systems. Our Integrated Logistics Support programme includes provisions of spares, maintenance, training and documentation to allow for the continuous operation of the simulator over its projected life-span.

Our on-site team of maintenance engineers ensure that the systems are operationally available of close to 100%. We tailor our support package according to customers' needs and budget. Many of our existing customers enjoy our effective inventory management systems, equipment reliability improvement programs and extensive global purchasing network, which translates to greater savings for the customers.

Our customers:

- Air Combat Manoeuvring Instrumentation System
- Small Arms Training Facility
- Aviation Training Centre
- Maritime Training Centres
